Noble Parents,
As-salamu Alaykum Wa-rahmatullahi Wa-barakatuh

In Appreciation of a Beautiful Moment of Time

It indeed pleases us immensely that you are in this community. You are rare invaluable gifts to us from Allah, the Most Generous. By your positive mindset and commitment, Noble Guide Academy thrives as a global standard that meets requirements of the 21st Century economy.

Cambridge International Primary Programme (CIPP) Certified

We are glad to inform you that the school sets to commence Cambridge International Primary Programme at the opening of next session, September 2021. We communicate this assurance, following the approval and certification we received on Tuesday, July 20, 2021. CIPP is the registered platform for international schools globally to run Cambridge Curriculum at the Primary level and enroll pupils for Checkpoint Assessment.

Payment Request for Books and Uniform by August 2

4

We would like to request that you pay, at least, for your children's books and uniform by August 2, 2021; preparatory to next session which begins September 6, 2021. We have learnt from experience that the peak period when schools shop for books falls within the first half of August, about a month to a new session.

Noble Parents,

As-salamu alaykum wa-rahmatullahi wa-barakatuh

In Appreciation of a Beautiful Moment of Time

It indeed pleases us immensely that you are in this community. You are rare invaluable gifts to us from Allah, the Most Generous. By your positive mindset and commitment, Noble Guide Academy thrives as a global standard that meets requirements of the 21st Century economy.

This surely is a legacy, your contribution to the future of the Ummah. By a simple reflection, how could the last academic year (and previous sessions) have become a great success without you? The session that commenced in the wake of global economic recession, threatened with fear of COVID-19 lockdown; the session eventually became very outstanding. By Allah, you made it so. You indeed inspire us always.

So, we appreciate your warmth, active engagement, generous feedback and tender criticisms. Your patience and understanding are quite inspiring. Common life experiences (even the Holy Books) have shown that big dreams come real in a community of people who have clear intents. Glory be to Him, Allah Who brings our paths together. He Alone is worthy of

Remembrance of Things Past

If we may briefly evaluate our operation and activities over the course of last session, we will not only count our blessings, but celebrate them. It was quite a beautiful, wonderful moment. We had a better freedom of time and space for teaching and learning processes, such that the school became more fun and engaging for all learners. Besides, we entertained some innovative ideas and had events grander than ever.

1. The Class of 2021 Graduation, unique in its own way, recorded the largest graduating set (65 members) in history.
2. The maiden Reading Fair, which celebrated our learners' artistic and creative skills, was entirely a success.
3. Spelling Bee competition held was equally rewarding.
4. On the occasion of AMIS Children's Day at National Stadium on May 22, NGA learners made the event distinctly colourful. (AMIS is Association of Model Islamic Schools.)
5. NGA Ramadan Lecture 2021, registering the largest attendees in years, was a great spiritual enlightenment.

Just few of the lots!
Most importantly, learners enjoyed adequate attention in classrooms. Series of training were organized for teachers, which we believe served the purpose. Also, the whole of Third Term was committed towards strengthening learners' potentials in Mathematics. The upper Primary classes and Year 3 attended Mathematics drills 7:30-8:30am, Monday to Thursday of every week. Similarly, some learners represented the school at international world days in town.

On one occasion, they performed a drama at the World Environmental Day marked by Abuja Environmental Protection Board. On another occasion, the learners were invited by Abuja Parks and Recreation. The audience marveled each time at the kids' presentation, intelligence and beauty. To Allaah Alone be the glory!

Cambridge International Primary Programme (CIPP) Certified

We are glad to inform you that the school sets to commence Cambridge International Primary Programme at the opening of next session, September 2021. We communicate this assurance, following the approval and certification we received on Tuesday, July 20, 2021. CIPP is the registered platform for international schools globally to run Cambridge Curriculum at the Primary level and enroll pupils for Checkpoint Assessment.

The assessment is progressive, aimed towards identifying learner's strength and weakness. Both are then seriously worked at to form a formidable career pathway. (The school has equally been certified for Cambridge A 'Level, through which we prepare students for entry into Part 2 at universities home and abroad.)

Here now is the evidence of international recognition for NGA Primary section; an achievement very rare in the country, especially in Abuja. Official records show that no other school in Gwarinpa-Kubwa axis is Cambridge certified.

The very few affiliates, NGA Primary now being one, have educational quality and privileges unparalleled globally. Teachers get better informed and equipped. The children become independent learners; purposefully curious, divergent in thinking, innovative and creative. For instance, just so soon, every one of our teachers now has official Cambridge online portals assigned for Continuous Professional Development (CPD), with printable certificates. Learners of course immediately take all the benefits, as they find their classrooms more conducive, better managed and interestingly interactive.

You, the parents no doubt thereby become more than ever fulfilled. Hopeful of bigger prospects from this new status, we commit all our programmes to Allaah. He is Ever-Sufficient for us.

Commencement of Career Experience Programme

We have a dream! This century and beyond, in shaa Allaah, Noble learners stand at the front and top of leadership in Science and Technology, Art and Creativity, and Entrepreneurship. More than well-equipped with fundamentals and essence of Qur'anic and Islamic knowledge, they champion a new world renaissance. We mean it!

So, we design some objective key results and review them strategically. Wide varieties such are, but be informed now of Career Experience Programme starting next session. This differs from Internship held for the J-Prep Class (Primary 6) in 2018 and 2019. It covers a wider spectrum of classes and skills acquisition. Besides, it is intended more purposeful and intensive. We currently work out all modalities and logistics for it.

CCTV Camera Installed

The current tense atmosphere in the country necessitates that individuals take responsibility for their safety and security, in whatever humble way possible, and submit the effort to God. Some of you observed this to us.

We equally felt concerned and indebted to discharge the responsibility to the community. This intention is blessed; Noble Guide Academy has risen to the challenge. Courtesy PTA Executives 2019-2021, we now have a 16-unit CCTV Camera installed, covering every point of the schools' premises, the whole length of the frontage and backyard (the field). We register our sincere appreciation to the Executives and the general assembly.

Payment Request for Books and Uniform by August 2

We would like to request that you pay, at least, for your children's books and uniform by August 2, 2021; preparatory to next session which begins September 6, 2021.

We have learnt from experience that the peak period when schools shop for books falls within the first half of August, about a month to a new session. On the contrary, we have always ordered for supply in September and beyond. So, scarcity blows hot. Some books thereby are made available very late, sometimes extremely late.

We have however decided to shop the right time. We have struck deals with our suppliers who demand we make payment first week of August if we desire a better treatment this time. Same goes for supply of uniform. We therefore request you cooperate. Payment of complete school fees is welcome even from now. if any circumstance stands against this, we seek to have at least for books and uniform as above requested; so that your children receive their supply immediately they resume. We trust you cooperate.

Congratulations! We believe you desire for your children more than rote learning. You want them to have Courage; the practical skills relevant for the age. You want them prepared for Character; excellent application of teachings of the Prophet of Allaah (SAW), and of practical skills acquired. You want them trained for Community; charisma and leadership skills that build relationships.

Congratulations! These we do at Noble Guide Academy Abuja. Our core values: Character, Courage, Community. kindly support us the more, by referral. We appreciate.
Till learners return for a new session on September 6, 2021, we say you and your circle of relatives and friends are beloved.
